

Dear Doctor:

We have received a referral to Ian Anderson House for your patient

 and encourage you to
continue as their attending physician while they are in residence here.

At Ian Anderson House, daily or even weekly visits are not necessarily required. Communication between the in-house Registered Staff and the Physician is primarily for pain/symptom management issues and status reports. These usually can occur by telephone or fax. Unless otherwise requested, communications to physicians are held between 23:00 and 07:00 hours.

When a resident dies, most physicians choose to come to IAH to complete the death certificate. Registered Staff can be designated to pronounce death; however, attending physicians/designate are required to complete and ensure delivery of death certificates to funeral homes within 24 hours.

We appreciate and encourage your involvement as we provide quality palliative end-of-life care.

Sincerely,

Home Co-ordinator
